

MINISTRY PAPER NO 52/2021

**The Law Reform (Zones of Special Operations) (Special Security
and
Community Development Measures)**

**The Greenwich Town Community Zone
Social Intervention**

July 16, 2021

Office of the Prime Minister

The Law Reform (Zones of Special Operations) Special Security and Community Development Measures

Social Intervention Report

(as of July 16, 2021)

This Honourable House is being requested to note that after the enactment of the Law Reform (Zones of Special Operations) (Special Security and Community Development Measures) Act, the Prime Minister on the advice of the National Security Council, declared the Greenwich Town Community as the third Zone of Special Operations (ZOSO) on July 1, 2020.

The Zones of Special Operations (ZOSO) combines a robust security approach led by the Jamaica Constabulary Force (JCF) and Jamaica Defense Force (JDF), and Social Intervention Component (SIC) that coordinates and implements social development measures by the various agencies, Non-Governmental Organizations (NGOs) and the private sector.

The Social Intervention support, which was coordinated by the gazetted Social Intervention Committee saw social programmes that focused on two key strategies: Crime Prevention Through Social Development (CPTSD) and Crime Prevention Through Environmental Design (CPTED).

A key objective of the interventions and programmes was to ensure the community was reconnected to the key agencies of government that deliver each programme, thus engendering sustainability and credibility among the citizen that their government is the legitimate provider of support services.

The Social Intervention Committee (SIC) is guided by SIC framework comprising of seven development areas:

- Physical Environment.
- Land Tenure,
- Community Safety.
- Human and Community Development and Employment.
- Business and Economic Development.
- Spiritual and Faith Based Intervention; and
- Leadership.

The ZOSO is built around the approach of Clear, Hold and Build, the latter is which ensures long term institutions are developed within the community.

The Greenwich Town Community is in the Constituency of Southwest St Andrew. The community is considered urban with a population of approximately 4,400 residents and over 1,100 households.

The community has been identified as one of the most volatile and vulnerable communities in Jamaica on the Planning Institute of Jamaica (PIOJ) community renewal index. This has seen the community identified as a priority community of the GOJ Integrated Community Development project that targeted 18 high risk communities. This project is currently ongoing and will be further scaled up with the introduction of the ZOSO in the community.

The Zone will adopt the same development pillars as the other ZOSOs in Denham Town and Mount Salem. It should be noted that the community was part of a major urban renewal project by the Government of Jamaica that has been making significant investment in its physical infrastructure and social development. The ZOSO will see a further scale up of these activities. Critically, the community has benefited from the following suite of interventions that were deployed and principally funded by the GOJ between 2015-2019:

1. Road works with over 7.1km of new asphalted roadway completed in the community.
2. Water Improvement with 800 water laterals to allow for household connections.
3. Zinc fence substitution with 778 meters completed.
4. Livelihood interventions including summer programmes and skills training benefitting over 80 youth in the community.
5. Rehabilitation of the St Andrew Primary school which support the community.
6. Entrepreneurial support for businesses in the community
7. Provision of civil documentation to over 300 residents.

RESULTS -- April 8, 2021 – July 16, 2021

1. **Enterprise Grant** – Ten fisherfolk have been shortlisted and quotations are being solicited to facilitate the procurement of the equipment, which are projected to cost approximately \$700,000 each. The overall process should be completed with the equipment secured by August 2021.

2. **School Rehabilitation** – The minor rehabilitation works at the Greenwich town Primary school are now completed.

3. **Environmental Wardens** – The twenty (25) wardens remain actively engaged and are supporting the work of the NSWMA within the community. They do both cleanup activities, as well as information dissemination to the community around effective sanitation.

4. **Zinc Fence Substitution** – Works are on-going and are approximately 20 per cent completed to remove 300 meters of zinc fence and replaced with concrete walls, along with the installation of new sidewalks.

ACTIVITIES TO COMMENCE IN FINANCIAL YEAR 2021/2022

INTERVENTION	ACTIVITIES	TARGET	BENEFICIARIES	STATUS
Infrastructure Development	Zinc Fence removal and substitution	Support the removal and substitution of approximately 300 meters of zinc fence with concrete fencing	Seventy (70) households are expected to directly benefit from this intervention.	Works currently 20 per cent completed.
	Installation of Additional sidewalks	1.8 km of sidewalks to be installed throughout the community.	4,000 residents of Greenwich Town	
	Rehabilitation of small parks and green spaces	2 green spaces to be upgraded	4,000 residents	Contract signed in the value of J\$3m. There have been unexpected implementation delays related to the pandemic; however, works should commence by September 2021.
Social Development	Summer Camp 2021	Provision of recreation and education activities during the summer	100	Scheduled to commence by the end of July 2021.
